

Aayan Agarwal

aayanagarwal05@gmail.com | +1 (765)-543-8015 | aayanagarwal.com | linkedin.com/in/aayan-agarwal | github.com/ion05

SKILLS

Languages: Python, R, Javascript, Java, SQL, Typescript, Swift, C, C++, PHP, Kotlin

Frameworks: Matplotlib, Flutter, NodeJS, ExpressJS, SolidJS, REST APIs, MySQL, RStudio, React, GraphQL, Android, IOS

Developer Tools: Git, Firebase, Google Cloud, Microsoft Azure, MongoDB, AWS, UNIX

EXPERIENCE

SWE Intern

June 2026 - August 2026

Meta

Menlo Park, CA

- Developed a PTT widget on WhatsApp Android and IOS which led to +0.2% increase in voice messages on WhatsApp.
- Built bottom sheets for groups to align with the rest of modern UI.
- Discovered and fixed 10 cross-platform bugs that improved product quality and reduced bad audio quality sends by 4%

SWE Intern

May 2025 - August 2025

Meta

Menlo Park, CA

- Developed an internal tool to map dependencies in code and saved 8 eng years
- Added triggers to ensure compliance with Privacy Policy
- Added data validation policy to ensure consistent UX and prevent bad actors

Research Assistant

April 2024 - April 2025

GRAIL - Police Accountability Project (Funded by NIJ)

West Lafayette, IN

- Presented at IEEE ISTAS 2024 and MPSA 2025 on the use of technology by Police Departments
- Collected and analyzed data on police departments, focusing on civilian oversight and its correlations with demographic and other factors.
- Designed and implemented analytical, data cleaning, and visualization frameworks using R.

Founder

Feb 2024 - Present

Humanoid Robot Club Purdue and StarkHacks

West Lafayette, IN

- Founded the first and largest Humanoid Robot Club in the US that build a walking humanoid robot in just 1 year.
- Grew the club to 1800+ members in just 2 years and raised \$500k+ from AMD, Tesla, Microsoft, Ultimaker, Lenovo etc.
- Set the World Record for the Largest Hardware Hackathon with 750+ students from 80+ universities and 10+ countries

PROJECTS

Mask

May 2026

usemask.us

NextJS, Typescript, Firebase

- A tool that lets anyone mint a virtual card instantly and autofill at checkout pages
- Built in just 4 days - uses Link CLI to mint and manager virtual cards to make privacy easy

StarkHacks Hacker Portal

April 2026

starkhacks.com

NextJS, Typescript, Postgress

- A platform to host the World's Largest Hardware Hackathon with 1500+ participants
- Built a hardware reservation system, automated recruiting pipeline, a mass email engine, and a 3D printing queue and load balancing system

FormGenie

February 2025

ProductHunt

Flutter, Dart, ExpressJS, Google Gemini, JS

- AI Agent that can create and edit forms and analyze responses in natural language.
- Built in 36 hours at Boilermake Hackathon and launched at #11 on Product Hunt

Plumaverse

January 2025

[Demo](#)

Flutter, Dart, Firebase

- All-in-one product feedback platform to allow PMs and developers to access AI-enabled insights into what their users want.

Drone Delivery

August 2023 - February 2024

[Github](#)

SolidJS, CeisumJS, Hasura, GraphQL

- Developed a web application that tracks multiple drones in real-time, logs telemetry data, and plots flight paths by integrating GPS tracking, data logging systems, and mapping APIs, ensuring compliance with FAA regulations.

EDUCATION

Purdue University

August 2023 - May 2027

BS in Computer Science and Artificial Intelligence, Minor in Business Economics

West Lafayette, IN

Activities: Student Activities Organizer of IEEE ETHICS 2025, President of TEDxPurdueU, Received Certificate of Merit from the President of India

Relevant Coursework: SWE Senior Project (CS 407), Artificial Intelligence (CS 471), Machine Learning (CS 373) Software Testing (CS 408), Software Engineering I (CS 307), Systems Programming (CS 252), Analysis of Algorithms (CS 381), Data Structures and Algorithms (CS251), Computer Architecture (CS250), Programming in C (CS240)
